Independent Auditors' Review Report

To Delpha Construction Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Delpha Construction Co., Ltd. (the “Company”) and its subsidiaries (the “Group”) as of June 30, 2024 and 2023, the related consolidated statements of comprehensive income for the three months and six months ended June 30, 2024 and 2023, changes in equity and cash flows for the six months ended June 30, 2024 and 2023, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the International Standard on Review Engagements 2410, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Note 4(3), the financial statements of certain insignificant subsidiaries were not reviewed by independent auditors. Those statements reflect total assets of NT\$1,337,729 thousand and NT\$1,440,386 thousand, constituting 5% and 7% of the consolidated total assets, and total liabilities of NT\$795,856 thousand and NT\$978,169 thousand, constituting 5% and 9% of the consolidated total liabilities as of June 30, 2024 and 2023, respectively; and total comprehensive income of NT\$(3,601) thousand, NT\$(9,192) thousand, NT\$(7,171) thousand and NT\$(16,239) thousand, constituting (1)%, 48%, (1)% and 54% of the consolidated total comprehensive income for the three months and the six months ended June 30, 2024 and 2023, respectively. The information related to above subsidiaries, accounted for under the equity method disclosed in Note 13 was also not reviewed by independent auditors.

Qualified Conclusion

Based on our reviews, except for the effect of such adjustments, if any, as might have been determined to be necessary had the financial statements of certain insignificant subsidiaries been reviewed by independent auditors described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of June 30, 2024 and 2023, and their consolidated financial performance and cash flows for the three months and the six months ended June 30, 2024 and 2023, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by the Financial Supervisory Commission of the Republic of China.

Delpha Construction Co., Ltd. and Subsidiaries
Notes to the Consolidated Financial Statements
For the Six Months Ended June 30, 2024 and 2023
(Amounts in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

1. History and organization

Delpha Construction Co., Ltd. (the “Company”) was incorporated in December 1960 with the approval of the Ministry of Economic Affairs. The Company and its subsidiaries (collectively, the “Group”) primarily engaged in building commercial buildings by commissioning construction building companies, selling and leasing of public housing, development of specific professional areas, interior decoration, property rent/sale real estate agency, and the operation of and investment in related businesses. The Company's stocks were listed on the TWSE in 1995. And the address is registered at 16F, No. 460, Sec. 5, Chenggong Rd., Neihu Dist., Taipei City.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries (“the Group”) for the six months ended June 30, 2024 and 2023 were authorized for issue by the Board of Directors on August 13, 2024.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments.

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are endorsed by the Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2024. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

(a) Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, determining the exchange rate to use and the disclosures to provide.

The above amendments are applicable for annual periods beginning on or after January 1, 2025. The amended standards and interpretations have no material impact on the Group.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and amendments to IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	January 1, 2023
c	IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027
d	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
e	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
f	Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026

- (a) IFRS 10 “Consolidated Financial Statements” and amendments to IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

(b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfillment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

(c) IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

(1) Improved comparability in the statement of profit or loss (income statement)

IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and require all entities to provide newly defined subtotals, (including operating profit or loss). The improved structure and new subtotals will give investors a consistent starting point for analyzing entities’ performance and make it easier to compare entities.

(2) Enhanced transparency of management-defined performance measures

IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

(3) Useful summary of information in the financial statements

IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

(d) Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

Simplify the disclosure requirements for subsidiaries without public accountability and allow subsidiaries that meet the definition to choose whether to apply this standard.

(e) Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (1) Clarify that a financial liability is derecognized on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.
- (2) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- (3) Clarify the treatment of non-recourse assets and contractually linked instruments.
- (4) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

(f) Annual Improvements to IFRS Accounting Standards – Volume 11

(1) Amendments to IFRS 1

The amendments mainly improve the consistency in wording between first-time adoption of IFRS and requirements for hedge accounting in IFRS 9.

(2) Amendments to IFRS 7

The amendments update an obsolete cross-reference relating to gain or loss on derecognition.

(3) Amendments to Guidance on implementing IFRS 7

The amendments improve some of the wordings in the implementation guidance, including the introduction, disclosure of deferred difference between fair value and transaction price and credit risk disclosures.

(4) Amendments to IFRS 9

The amendments add a cross-reference to resolve potential confusion for a lessee applying the derecognition requirements and clarify the term “transaction price”.

(5) Amendments to IFRS 10

The amendments remove the inconsistency between paragraphs B73 and B74.

(6) Amendments to IAS 7

The amendments remove a reference to “cost method” in paragraph 37 of IAS 7.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group’s financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under (c), it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. Summary of significant accounting policies information

(1) Statement of compliance

The consolidated financial statements of the Group for the six months ended June 30, 2024 and 2023 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and IAS 34 “Interim Financial Reporting” as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars (“NT\$”) unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).
- (b) Exposure, or rights, to variable returns from its involvement with the investee, and;
- (c) The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) The contractual arrangement with the other vote holders of the investee.
- (b) Rights arising from other contractual arrangements.
- (c) The Group’s voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, if without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- (a) Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- (b) Derecognizes the carrying amount of any non-controlling interest;
- (c) Recognizes the fair value of the consideration received;
- (d) Recognizes the fair value of any investment retained;
- (e) Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or are directly transferred to retained earnings in accordance with IFRS;
- (f) Recognizes any surplus or deficit to profit or loss.

The consolidated entities are listed as follows:

Name of investor	Subsidiary	Main businesses	Percentage of ownership (%)		
			June 30, 2024	December 31, 2023	June 30, 2023
The Company	Huachien Development Co., Ltd. ("Huachien")	Development, sales, and rental business	58.36%	58.36%	58.36%
The Company	Huajian Construction Co., Ltd. ("Huajian")	Construction business	100%	100%	100%

The financial statements of some of the consolidated subsidiaries listed above had not been reviewed by auditors. As of June 30, 2024 and 2023, the related assets of the subsidiaries which were unreviewed by auditors amount to \$1,337,729 thousand and \$1,440,386 thousand, respectively, and the related liabilities amount to \$795,856 thousand and \$978,169 thousand, respectively. The comprehensive income of these subsidiaries amounts to \$(3,601) thousand, \$(9,192) thousand, \$(7,171) thousand and \$(16,239) for the three months and the six months ended June 30, 2024 and 2023, respectively.

(4) Except for the following accounting policies, the accounting policies adopted in the consolidated financial statements of the Group for the six months ended June 30, 2024 and 2023, are the same as those adopted in the consolidated financial statements for the year ended December 31, 2023. For a summary of other accounting policies, please refer to the Group's consolidated financial statements for the year ended December 31, 2023:

(1) Post-employment benefit plans

The pension cost for the interim period is calculated based on the pension cost rate determined by actuarial valuation as of the end of the previous year, applied from the beginning of the year to the end of the current period. This is adjusted and disclosed for any significant market fluctuations, curtailments, settlements, or other one-time events occurring after the valuation date.

(2) Income taxes

The income tax expense for the interim period is accrued and disclosed using the tax rate applicable to the expected total earnings for the year. This involves applying the estimated annual average effective tax rate to the pre-tax income for the interim period. The estimation of the annual average effective tax rate includes only the current income tax expense, while deferred income tax is recognized and measured in accordance with IAS 12 "Income Taxes," consistent with annual financial reporting. If there is a change in tax rates during the interim period, the effect of the rate change on deferred income tax is recognized immediately in profit or loss, other comprehensive income, or directly in equity.

5. Significant accounting judgements, estimates and assumptions

The significant accounting judgments, estimates, and sources of uncertainty adopted in the Group's consolidated financial statements for the six months ended June 30, 2024, and 2023, are the same as those in the consolidated financial statements for the year ended December 31, 2023. Please refer to the Group's consolidated financial statements for the year ended December 31, 2023.

(15)Equities

A. Common stock

As of June 30, 2024, December 31, 2023 and June 30, 2023, the Company's authorized capital was both NT\$12,000,000 thousand and the issued capital was \$8,399,880 thousand, with 839,988 thousand shares, respectively, each at a par value of NT\$10. Each share has one voting the right and right to receive dividends.

B. Capital surplus

	As of		
	June 30, 2024	December 31, 2023	June 30, 2023

Total	<u>\$1,257,618</u>	<u>\$1,257,440</u>	<u>\$1,257,440</u>

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policies

According to the Company's Articles of Incorporation amended on June 28, 2023, current quarter's earnings, if any, shall be distributed in the following order:

- a. Payment of all taxes and dues.
- b. Offset prior years' operation losses.
- c. Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve.
- d. Set aside or reverse special reserve in accordance with law and regulations.
- e. The rest shall be distributed in cash by the board of directors; if it is issued new shares, it shall be reported to the shareholder's meeting Resolution.

If the Company has a surplus in the current quarter (including the previous period), and after items a to d listed above, the Board of Directors will propose a distribution plan to the shareholders' meeting. The distribution plan allows for the distribution of shareholder dividends ranging from 0% to 100% of the distributable profits for the year. However, the cash dividend shall not be less than 10% of the total shareholder dividends. If the distributable profits are lower than 5% of the Company's paid-in capital, no distribution will be made.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total issued capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal service which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to existing regulations, when the Company distributing distributable earnings, it shall be set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to "other net deductions from shareholders' equity for the current fiscal year, provided that if the company has already set aside special reserve in the first-time adoption of the IFRS, it shall set aside supplemental a special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

On March 31, 2021, the FSC issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the special reserve in the amount equal to the reversal may be released for earnings distribution.

The Company's Board of Directors resolved on May 10, 2024, March 29, 2024, and March 15, 2023, to allocate and distribute the earnings for the first quarter of 2024, the fourth quarter of 2023 and the second half of 2022, respectively, as well as the dividends per share, as follows:

According to the Articles of Incorporation, 0.5% of profit of the current year is distributable as employees' compensation and no higher than 2% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall first have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

For the six months ended June 30, 2024, the Company's compensation to employees and directors remuneration were determined based on profit in the amount of \$4,612 thousand and \$999 thousand therefore, no estimates were made for the employee's compensation and remuneration to directors for the six months ended June 30, 2023 because of loss.

B. Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for foreign currency USD. The information of the sensitivity analysis is as follows:

When NTD strengthens/weakens against foreign currency USD by 5%, the profit for the six months ended June 30, 2024 and 2023 is increased/decreased by \$48 thousand and \$125 thousand, respectively, the equity is increased/decreased by \$70 thousand and \$71 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans and borrowings and entering into interest rate swaps. Hedge accounting does not apply to these swaps as they do not qualify for it.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 1% of interest rate in a reporting period could cause the profit for the six months ended June 30, 2024 and 2023 to increase/decrease by \$55,788 thousand and \$46,641 thousand, respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities and conversion rights are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through profit or loss and financial assets measured at fair value through other comprehensive income, while conversion rights of the Euro-convertible bonds issued are classified as financial liabilities at fair value through profit or loss as it does not satisfy the definition of an equity component. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, a change of 10% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Group's profit for the six months ended June 30, 2024 and 2023 by \$235 thousand and \$257 thousand, respectively.

Please refer to Note 12.(8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

The main account receivables of the Group consist of installment payments to be collected from customers for the sale of real estate. Based on the customer's past payment history and an assessment by the management, no significant credit risks were identified.

Credit risk from balances with banks, income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments, bank borrowings, convertible bonds and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

(7) Fair values of financial instruments

(a) The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- a. The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- c. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)

- (b) Fair value of financial instruments measured at amortized cost.

The Group measures the carrying amount of financial instruments at amortized cost, which reasonably approximate their fair value.

- (c) Fair value measurement hierarchy for financial instruments

Please refer to Note 12.(8) for fair value measurement hierarchy for financial instruments of the Group.

- (8) Fair value measurement hierarchy

- (a) Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

- (b) Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

As of June 30, 2024

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through other comprehensive income

(10) Capital management

The Group's capital management aims to ensure the ability as a going concern, so as to provide returns to shareholders and benefits to other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

To maintain or adjust the capital structure, the Group may adjust the dividends paid to shareholders, reduce capital to refund shareholders, or issue new shares or sell assets to pay off liabilities.

In line with the approaches adopted by its competitors, the Group manages capital on the basis of its debt-to-capital ratio, which is calculated by dividing net liabilities by total capital. Net liabilities are the total liabilities presented in the balance sheet less cash and cash equivalents. Total capital is the total component of equity (i.e., share capital, capital surplus, retained earnings, other equity interest, and noncontrolling interests) plus net liabilities.

The administrative authority uses appropriate net liabilities/(total equity plus net liabilities) or other financial ratios to determine the Group's optimal capital to ensure that financing is available at a reasonable cost.

The debt-to-capital ratio is as follows:

	As of		
	June 30, 2024	December 31, 2023	June 30, 2023
Total liabilities	\$15,392,060	\$13,049,787	\$11,230,319

14. Segment information

For management purposes, the Group is organized into business units based on their products and services and has three reportable operating segments as follows:

- (1) Construction Department: This department is mainly responsible for entrusting construction contractors and developing public residential housing and commercial buildings for lease or sale.
- (2) Movable and Immovable Property Investment and Development Department: Primarily responsible for the development, leasing, and sale of residential properties and buildings, as well as the development of specialized districts.
- (3) Building Department: This department is responsible for contracting, managing, and investing in civil and architectural engineering projects.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on pretax operating profit or loss and is measured based on significant accounting policies information consistent with those in the consolidated financial statements. However, income taxes are managed on a group basis and are not allocated to operating segments.

Transfer pricing between operating segment are on an arm's length basis in a manner similar to transactions with third parties.
